

Mental Health Consultant RFP Q&A

A clarification was requested regarding the Conditions to Bidding section. In Section 2.8.5 "References," the RFP states that the "Bidder must provide a minimum of three professional references, two of which must be former customers/clients."

For clarification:

- The reference request is not intended to be individual clients, but rather "institutional/organizational" clients (such as Union County Community Action, Inc.), where the consultant has contracted with an organization/company/agency to provide services through a contract/MOU/collaborative agreement.
- References can also be professional references of colleagues you have worked with within the scope of the work bid to be performed.
- Union County Community Action is **not** requesting to speak with individual clients receiving the consultant's services, as this would be a HIPAA violation.
